Dear Bill,

Glad you had a good vacation and caught all those baracude on spider web ~~thy~~ threads.

And for your letter to Norris.

And especially that your father is coming along as he is! Hope he can get himself into a walking program besides the cardiac rehab. they have probably prescribed and was denied me. He also wants to read labels to be sure he is not getting too much salt and other things he should not have in excess. As I now do, meaning read the labels.

McK asked me ~~if~~ to write about Hersh so I've read and made note for The Dark Side of Sy Hersh. Thanks for anything you may send in any way related.

It is a disgusting and disgustingly dishonest book.

Me? Back to work!

Best to you both,

Harold
